

MudPuppy 170-2sc

**Pick Up & Clean
350 GPM**

Saves Money

Fast Easy Setup

The MudPuppy sets up in just a few minutes. No settling pit to dig and fill. Only 600 gallons of water needed to get started.

Clean mud means a clean hole.

The Job Site will be Clean and Dry.

Pump, Drill string, and Swivel all last longer with clean mud.

Mix only the amount of mud needed to drill the hole.

Mud Reservoir "Patent Pending"

600 gallons Usable
3/16" HR Steel
(2) - 4" Suction Outlets
Sloped walls & Sand traps

Never Shovel Sand from this Tank!

Deutz Diesel 75 HP BF4L2011

Air-Cooled 4 cylinder in-line engine
Fulfills Tier III EPA emissions regulations
Engine Monitor System (safety shutdown) Gauge Panel
Alternator 12 Volt

Shaker

3' x 5' Double Screen Bottom 10 Mesh Top 100 Mesh
Hydraulic driven w/constant speed control, Rotary Motion.

Mix Hopper

Jet ventury Mud mix system.

Sand Guzzler pickup pump (Patented)

10" (Centrifugal) Mud Pump
Can take rocks up to 1-1/2" diameter
Pump 0 - 3000 RPM
0 - 350 GPM
20' of 3" Hose

Total Weight

3,900 Pounds
Foot Print 5'6" Wide x 11' Long x 6'6" Tall

Fuel Capacity

25 Gallons Diesel approximately
20 Hours "Run time may vary."

Desander System

2"x3"x8.5"x 118 (Centrifugal) Mud Pump
With mechanical seal.
Desander Manifold Pressure Gauge
2-5" Desander Cones
170 GPM
15 Micron Cut

Hydraulics System

Variable Displacement pump
Load Sense Control
55 gallon Oil Reservoir
High Capacity Cooling System

NO DIG Equipment
